

The diagram illustrates a network architecture. On the left, three identical client systems are shown, each consisting of a monitor (102) and a base unit. Each client system is connected to a network device (104) via a line. These network devices are then connected to a central cloud (108) via network lines (106). On the right, a server (100) is connected to the cloud (108) via a network line. The cloud (108) is represented by a cloud shape with the number 108 inside.
